

AT THE HEART
OF REALITY

SPRING/SUMMER 2022

AT THE HEART OF REALITY

We live as we learn, not a distant brand but instead at the heart of reality. Rooted in Småland, we are a family where everyone belongs. Everything we do is for real, we are one with our consumers. Each seam in each garment is designed with experience, expertise and care, in Värnamo, Sweden.

**Our inspiration comes from
how folks actually do things, not
from how we want them to do.**

We know this. We love this.

[FACEBOOK.COM/PINEWOOD.SV](https://www.facebook.com/pinewood.sv)

[PINEWOODOUTDOOR_OFFICIAL](https://www.instagram.com/pinewoodoutdoor_official)

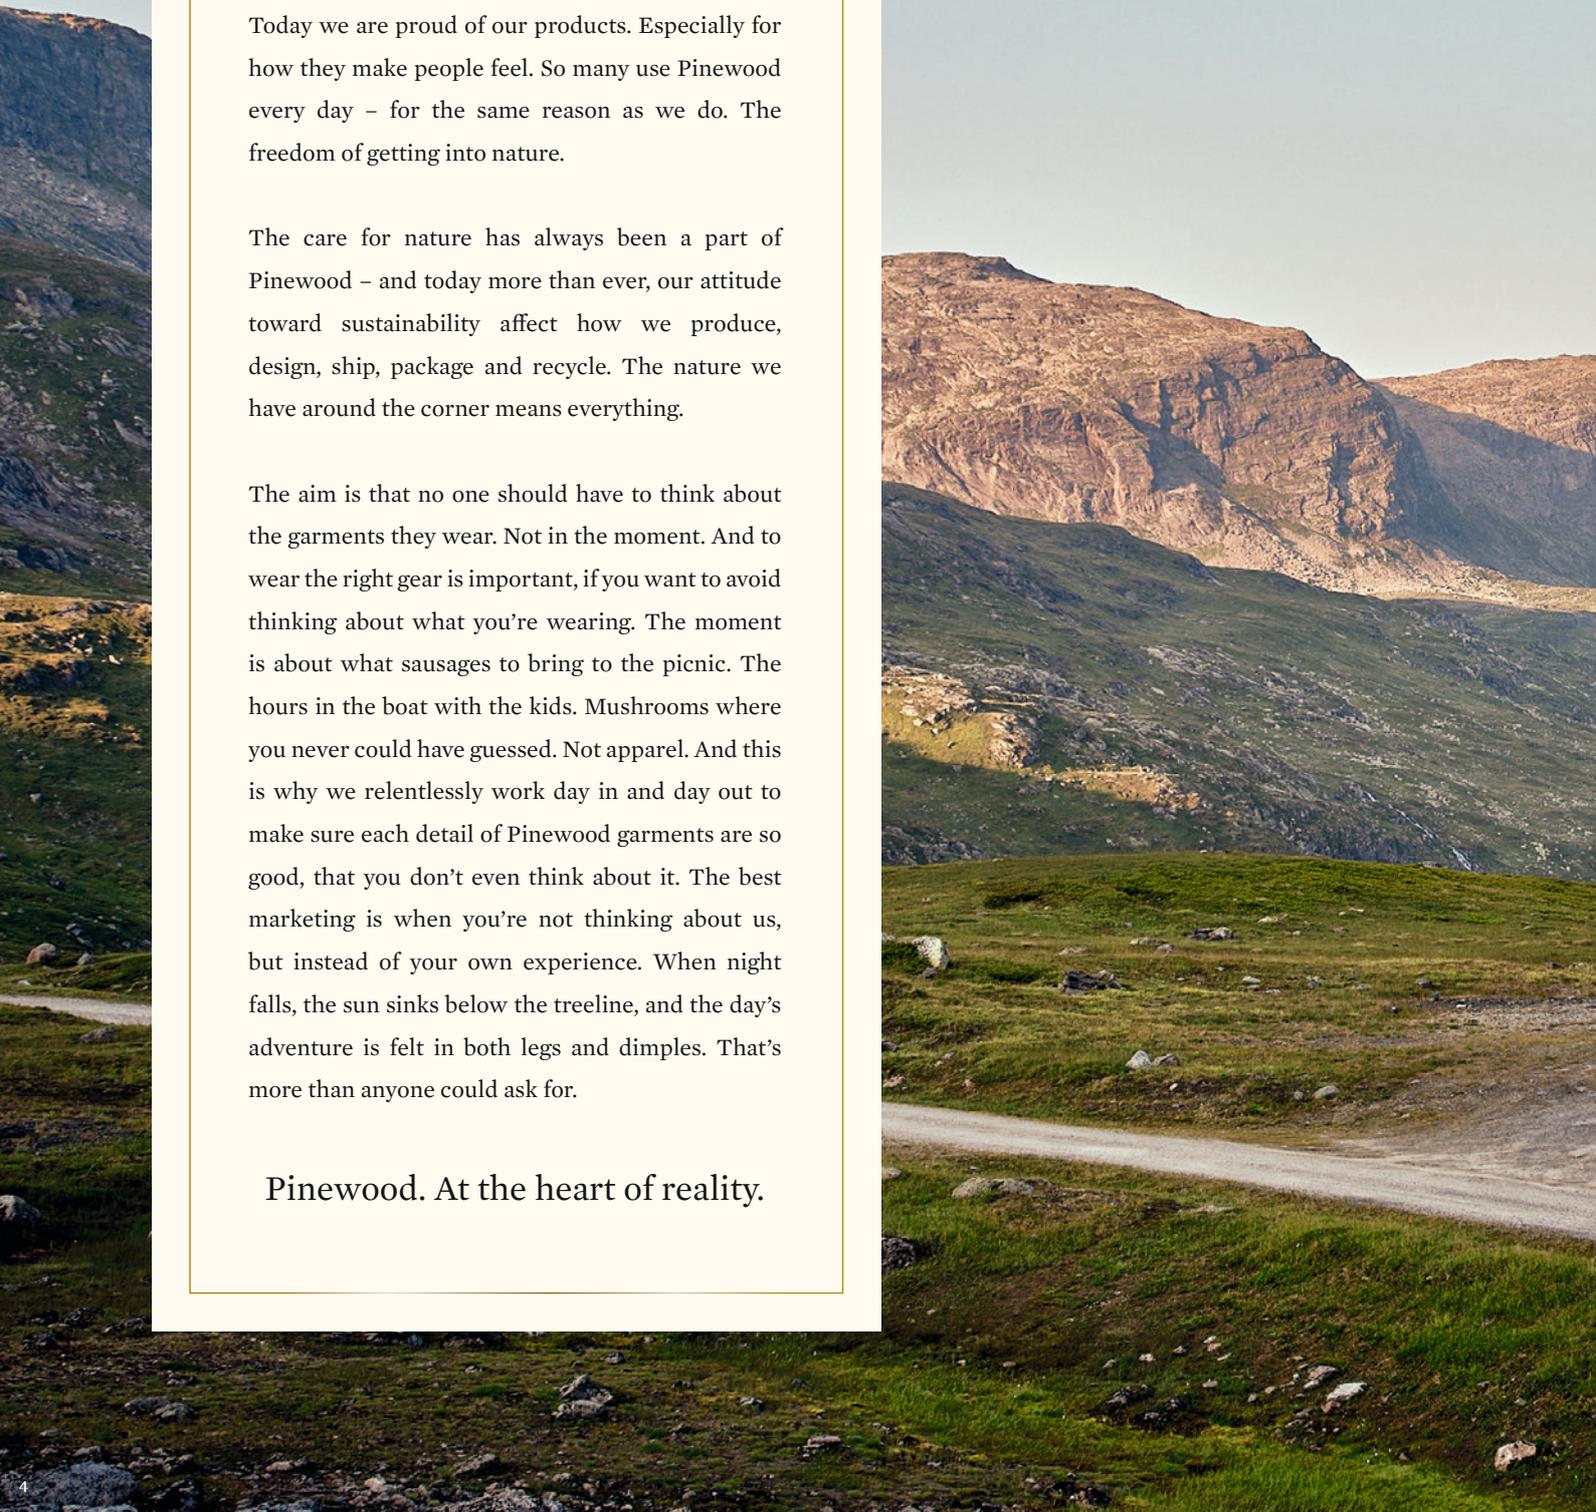

by folks, for folks

When Pinewood was founded in 1996, we didn't spend many thoughts on marketing. All energy went into developing outdoor gear that we wanted to use ourselves, that became our favorites, and always came with us out into nature. Regardless if it was picking mushrooms, to the fishing lake or the trail. And we kept on like that. Created and grew. Listened to folks, reconsidered, came up with new solutions. Today we are proud of our products. Especially for how they make people feel. So many use Pinewood every day – for the same reason as we do. The freedom of getting into nature.

The care for nature has always been a part of Pinewood – and today more than ever, our attitude toward sustainability affect how we produce, design, ship, package and recycle. The nature we have around the corner means everything.

The aim is that no one should have to think about the garments they wear. Not in the moment. And to wear the right gear is important, if you want to avoid thinking about what you're wearing. The moment is about what sausages to bring to the picnic. The hours in the boat with the kids. Mushrooms where you never could have guessed. Not apparel. And this is why we relentlessly work day in and day out to make sure each detail of Pinewood garments are so good, that you don't even think about it. The best marketing is when you're not thinking about us, but instead of your own experience. When night falls, the sun sinks below the treeline, and the day's adventure is felt in both legs and dimples. That's more than anyone could ask for.

Pinewood. At the heart of reality.

NEW FOR THE SUMMER

EVERYDAY TRAVEL

STAY HOME OR EXPERIENCE THE WORLD? THE SPRING/SUMMER COLLECTION IS MADE FROM THE LONGING OF TOGETHERNESS AND THE APPRECIATION OF NATURE, WHERE WE CAN BE FREE.

In the last year we've seen a huge increase in outdoor activities and a movement from the big cities towards the countryside and nature. With this in mind we have focused on an Everyday travel collection for all levels of activeness, travels and curiosity for nature. Whether it's traveling abroad, sightseeing, trekking, experiencing the forest, the mountain views, the hiking trail or the home garden, this is a collection that conveniently transforms with you.

READY FOR TRAVEL, HOME OR AWAY

With great features such as light packing, breathable 4-way stretch, high comfort and heat adapting qualities this travel collection includes pieces for every occasion.

“With seasonless design that lasts, season after season we give our clothes a longer possible lifecycle.”

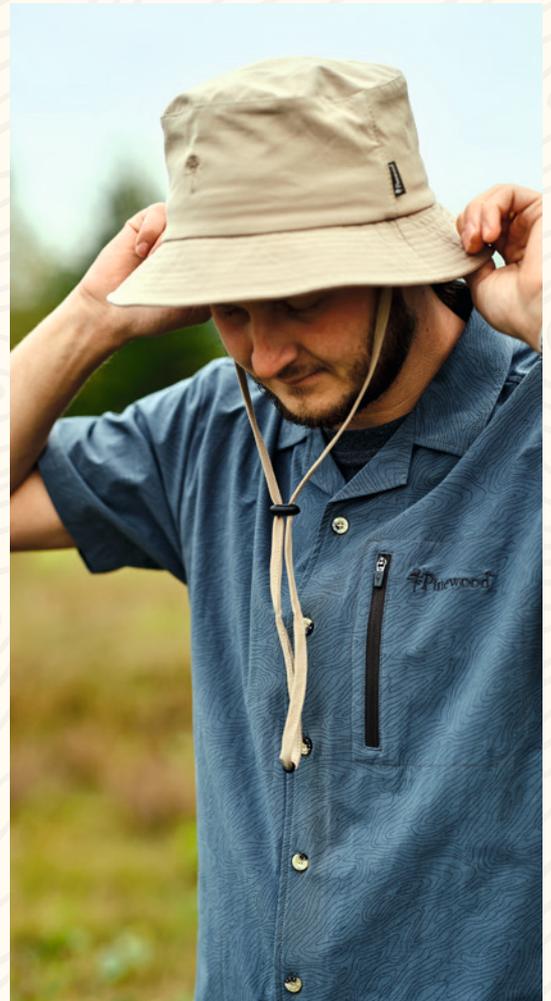

EVERYDAY TRAVEL

FREEDOM TO EXPLORE

After spending most of our time at home we've grown to appreciate the greatness of comfort and the nearby nature. Making the silhouette in our design more and more relaxed. In the spotlight we have smart function and high comfort, as well as the design that conveniently transforms from every day to outdoor activities and to work.

In this travel collection we have focused on a highly 4-way stretchable fabric in cotton and recycled polyester with great benefits such as high breathability and superior fit. Also, the perfect traveling features: easy to pack, light in weight and quick dry.

EVERYDAY TRAVEL

SEASON AFTER SEASON

Another important focus point is our work to make less impact on the environment. With seasonless design that lasts, season after season we give our clothes a longer possible lifecycle. This transformation is

made throughout the entire design and collection with technical fabrics, colours, function and comfort. Our goal is that all of Pinewood's collections can be fully versatile and used in the best way that you find it fitting.

SEE THE ENTIRE EVERYDAY TRAVEL COLLECTION ON PAGE 37 OR ON OUR WEBSITE.

PINEWOOD.EU

THE TOP OF YOUR BACKPACK

Here you'll keep the things that you need to be able to get to easily during the day. Travel sized bug spray and sunscreen. Map or GPS. A camera. A lighter. A quick snack. A spork. Head lamp. Multi tool. Rainwear/rain cover. Toiletries such as toilet paper, shovel, sanitizer and a bag for the used paper. First aid kit. Water. Electronics packed in a waterproof bag.

THE MIDDLE OF YOUR BACKPACK

Here you'll place your heaviest objects. A storm kitchen. Food containers. Toiletries. A mug.

THE BOTTOM OF YOUR BACKPACK

In the bottom of your backpack, you'll store lighter stuff that you won't need during the day such as a sleeping pad and sleeping bag. Fill the empty gaps around it with clothes.

THE SIDE POCKETS

Trekking poles, tent poles and water bottles are excellent for storing here.

THE HIP BELT POCKETS

Here you'll keep your phone for example.

EVERYDAY PACKING

HOW TO PACK YOUR BACKPACK

A good rule to follow when you pack your backpack for camping and hiking is to pack in three parts: bottom, middle and top. Always pack the bottom first, balance the load by keeping heavy things in the center and stash your essentials for the trail on top. This way the things you need are always within reach and don't require taking off your backpack and digging through the backpack. Here's a breakdown of how to pack a backpack for camping and hiking.

TIP:

- Roll your garments to save space and to avoid wrinkles
- Use travel sized toiletries to save space and weight
- Quick dry garments are perfect when travelling. You can easily wash or rinse them during the trip

OUR SMALL TROUSERS GUIDE

WHICH PAIR SHOULD I CHOOSE?

Different trousers are more or less suited for different seasons and activities. Sometimes it can be hard to know which ones to pick. Just relax, we help you. Our small guide to picking the right trousers will help you find which trousers are

most suitable for your next adventure. When you've found the optimal trousers, go check out our size guide to help you find the right size. You can find the size guide on our website.

This is an assortment of our trousers. You'll find the whole selection on our website.

SUSTAINABILITY

Protect nature with focus on quality and materials

Today, we have also fully converted to fluorocarbon-free DWR's, consistently increase our use of recycled materials.

With our roots in the woods, we are aware of the responsibility toward the climate that comes with running a global apparel brand. We strive toward lowering our environmental impact through an increasing share of sustainable materials, and by also gradually improving quality we secure better longevity in all products.

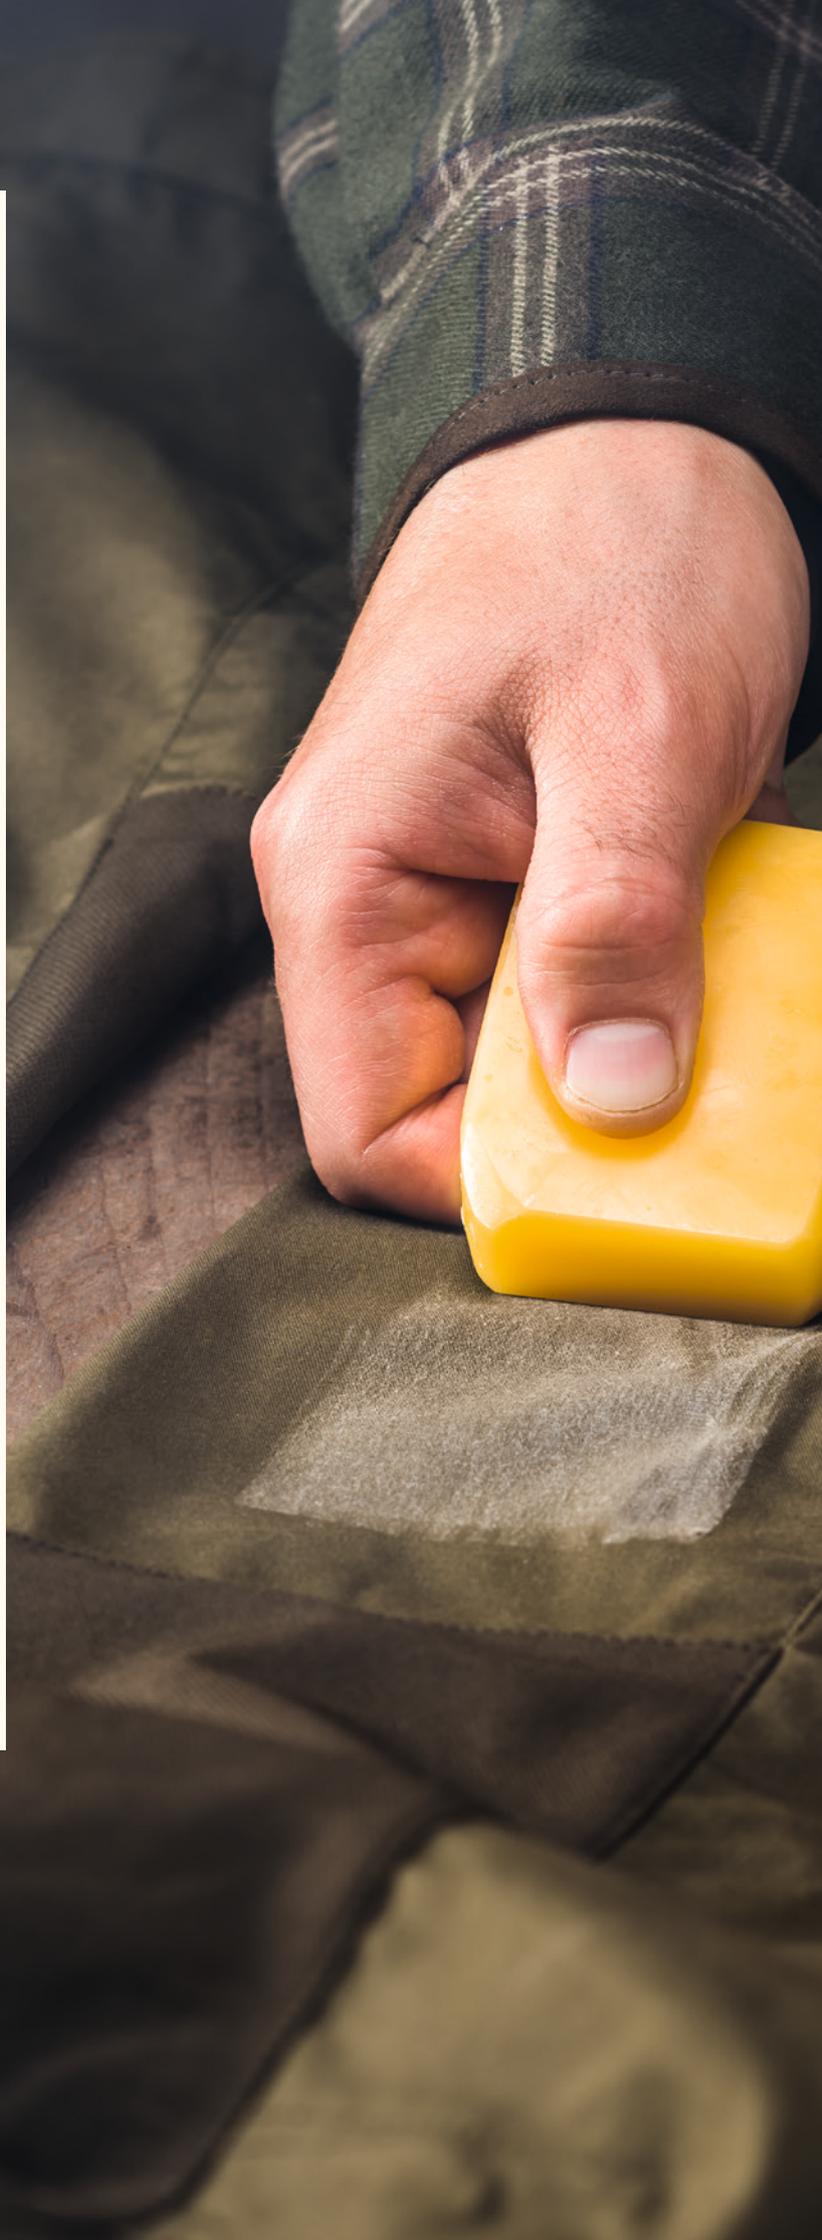

We pose demands on all material suppliers to at a minimum comply with EU chemical regulations, and we influence an increasing number of partners to become certified according to amfori BSCI's code of conduct, including the 11 rules for fair and safe working conditions.

GUIDE

HOW TO USE OUR WATER REPELLENT WAX

1. Apply the wax by rubbing it onto the fabric. Make the strokes long, even and light. Keep the layers of wax thin.
2. Add heat to the wax by using a clean iron with no steam or with a hair dryer. Make sure the iron is not too warm, low to medium heat is recommended. Melt the wax so that it enters the fabric properly. Try first on a small area before you apply wax to the entire garment.
3. For extra water resistance just repeat the process and add another thin layer of wax. If you do not want to add extra wax on the entire garment you can add it on more exposed parts e.g. shoulders and knees.
4. Do not forget to clean your iron after heating the wax.
5. After you have washed the garment you can renew the impregnation by doing step 1-4 again.

TIPS & TRICKS

- **Do I need to wax a brand new garment?** No, that is not necessary. Most new garments are already treated with a water- and dirt repellent treatment. After a while of use or some washes you may need to re-wax it.
- If you're out in nature, there's some supplies that you can use when waxing, such as the open fire or a water bottle made from metallic filled with hot water. Just be careful not to burn your garment or yourself.
- Apply a thicker layer to the parts that are more exposed, such as for example the leg ends, the knees and the rear.
- **Is it possible to see when it's time to wax my garment?** Yes, your garment will start to feel dry and will absorb water. When you notice this, it's time to re-apply wax.
- Try to wash your garment more rarely since the wax will come off more and more with each wash. Remember that the more you wash it, the more frequently you'll need to re-wax it.
- Avoid waxing the stretchy parts of the garment, for example if there's a different stretchy fabric on the knees and rear.
- Our wax is environmental friendly and made from bee wax and paraffin. One block of wax is enough to wax about 8 times.
